

8/16/2024

Dallen Rice is a very hard working person. He works on his craft day in and day out. He is very coach able and is always working on trying to find a way to get better in all aspects of the game.

Every time I see Dallen he is better than the last time I saw him. I love his drive in sports. Using his athletic ability in football and baseball to translate from one to another giving him an edge. Dallen is a baseball player not just a position guy. He can play any position you ask and do it well. I'm excited to see where he ends up because he will do big things.
